Guests Present:  none

I. Call to Order and Approval of Minutes

1. Dr. Owen called the meeting to order at 1:33 pm.

2. The minutes of the Apr. 14th meeting were approved.

II. Reports and Announcements

1. Dr. Owen reported that the Academic Program Review Committee will be meeting to finalize the new process for the 5-year program review cycle. The committee has been working on a new set of criteria to reform the process. Dr. Owen drew our attention to the preliminary report of the APRC that is on the senate website. Dr. Jordan expressed her concern that the committee is moving towards greater reliance on a numbers game, and suggested that when internal governance is reviewed the membership of the APRC should be more representative of faculty. Dr. Owen noted that there is no guidance in IG concerning who has the authority to set review guidelines, and suggested that this is something on which the faculty senate (or the executive council this summer) could make a recommendation. After further discussion, Dr. Owen agreed to bring draft language for recommendations at our next meeting.

2. Dr. Owen reported that we will get a copy of the ESHE proposal on elevating Athletic Training to a major, and we will make a recommendation on the senate’s behalf.

3. Dr. Owen will send an email asking new senators for preferences on open committee seats, so that we can make those assignments early this year.

4. Dr. Owen is also interested in crafting the committee objectives for next year.

5. The Campus Environment Committee is still working on the faculty survey, and reports that more than half of the faculty had already responded. The committee will be able to give us the numerical summary and the written comments in a matter of weeks.

6. The ad hoc investigative committee will have its first meeting tomorrow. The members are Dr. Stephen Owen, Dr. Clair Waldron (CHHS), Dr. Jim Lollar (COBE), William Flora (CEHD), Dr. William Hrezo (CHBS), Dr. Chester Watts (CSAT), and Roann Barriss (CVPA). Their goal tomorrow will be to review the motion that
established the committee, and Dr. Owen will recommend that they will act expeditiously. The committee will also elect a chair and a recorder.

7. Dr. Owen reported that the Technology Advisory Committee is preparing to make an offer on the contract for the new web page. Dr. Owen said that he is persuaded that subcontracting is the right option. He anticipates that it will be a 6 to 9 month process. Many university offices will be called upon to participate in that process.

8. Dr. Owen distributed copies of the motion the senate passed regarding incorporating the curriculum proposal path, a copy of which was also distributed. He reported that nowhere in the University Executive Council’s minutes is there any indication that the senate’s motion was forwarded to them for action. Dr. Owen asked that we review these for discussion at our next meeting.

2. The minutes of the May 19th meeting were approved.

II. Reports and Announcements

1. Dr. Owen reported that RU’s contract with Barnes & Noble is expiring, and the university is receiving bids for a new bookstore contract to begin in the fall. A faculty representative will be needed for the RFP committee, so Dr. Owen will contact the Bookstore Advisory Committee for a volunteer.

2. The RFP committee for the web page has made a recommendation to the administration, and the company recommended will be making a presentation to the president’s cabinet.

3. Dr. Lerch is working with the provost and president on a message to the IG committees to give them guidelines for complying with the recent motion calling for a report on internal governance. Dr. Lerch asked which committees the motion applies to, and the members of the faculty senate executive council agreed to advise him that the sense of the motion is that the request is limited to standing IG committees.

4. The proposal for the Exercise, Sport, and Health Education major in Athletic Training will be coming soon. The provost is evaluating it for resource requirements.

5. An email will be sent soon indicating that Susan Van Patten is being named as an acting coordinator of the Core Curriculum, helping to pick up some administrative duties for which Dr. Lerch has been responsible. This position will be regularized with a position announcement and search in the fall.

6. There will be a proposal soon to rename the General Education Curriculum Advisory Committee.

7. Dr. Owen reported that the president would like to be more visible on campus at academic events. She also wants to explore the idea of having a faculty member working in the president’s office in some capacity, perhaps as a position that would be filled by a different faculty member each year.
8. Dr. Owen reported that the ad hoc investigative committee has met and has thus far conducted no business other than that reported in Dr. Hrezo’s email to faculty. Dr. Jordan’s proposal to recommend to the ad hoc committee that it extend its deadline for reports was debated. The members agreed to recommend to the committee that it extend its deadline for submission of materials. Dr. Owen will report this recommendation to the committee.

IV. New Business
   1. The Athletic Training Program was considered, and the members voted unanimously to recommend the approval of the program.

   2. A request from Moira Baker to obtain all of the data gathered by President Kyle during the “Days of Visioning” leading to the development of the 7-17 Strategic Plan was considered. After discussion, Dr. Owen agreed to write a detailed request for the president and the provost to report on what records exist, including drafts of the plan, where they exist, and how we may arrange to obtain copies of all existing documentation. The other members will be given an opportunity to review the request, and it will then be forwarded expeditiously with a request for prompt action.

   3. Members discussed their upcoming discussion with the provost and in particular their expectations of him. Members agreed that we should not discuss allegations that are currently under review by the ad hoc committee. It was also agreed that he needs to be apprised of the alarming level of faculty anger with the administration’s handling of academic affairs. The members want him to characterize his understanding of the faculty’s role with respect to decisions about academic affairs in light of the accreditation standards promulgated by SACS.
4. Members discussed the issue of appropriately documenting our un-minuted meetings with members of the administration. Members agreed to write personal memos of such meetings, and Dr. Owen will make a report on any action items that arise from such meetings.

2. Dr. Owen drew to the members’ attention a draft Academic Program Review Committee proposal for the new review process so that we could provide comments that he will take back to the committee. Members discussed the numerical scores expected of programs for viability, the intrusiveness of the student assessment requirements, and the desirability of automating and simplifying the process.

3. Dr. Owen updated us on the new faculty morale survey, but asked that we not disclose the details until it is officially reported, to avoid any possibility of promulgating mistaken information.

4. Dr. Owen reported that the ad hoc committee has met and is determining the process it will follow to pursue the allegations it has received. The committee will be asking some individuals to speak to the committee with respect to the allegations.

III. Old Business

1. None.

IV. New Business

1. Dr. Owen presented draft reports on our meetings with the provost and president. Members discussed amendments to these reports, specifically with respect to providing greater detail on specific recommendations that the members had made to the provost and president in these meetings. Dr. Owen took members suggestions and will prepare revisions of the draft.

2. The members reviewed Dr. Stanton’s proposal for an Academic Affairs Budget Advisory Committee. There was unanimous support for recommending against the
creation of such a committee, on the grounds that existing administrative and
governance structures are adequate for a robust budgetary process, provided they are
properly utilized.

3. Members chose to set the regular executive council meetings for the fall 2009
semester on Wednesday’s at 1pm.

4. Members reviewed Dr. Stanton’s proposed curriculum path document. The members

2. Dr. Owen talked with Dr. Nape, the Vice Provost for Admissions, and Dr. Owen has expressed an interest giving a presentation to the faculty in the fall. Dr. Owen also shared the concerns that faculty had expressed about the models used for student admissions, and Dr. Nape is interested in addressing those concerns.

3. Dr. Owen reported that the search for a new registrar will start soon, and we need to find two faculty members who would like to serve on that committee.

4. Dr. Owen reported that the Academic Program Review Committee has sent its draft proposal for future program reviews to the provost. Many changes were made to the proposal in response to faculty concerns communicated to the committee by the faculty senate executive council. In particular, there will be no set numerical requirements for majors or for credit hours taught. Each year the data for programs will be updated, and a narrative will be provided by the department regarding the data. The issue of assessment has been addressed, and there will be efforts to ensure that assessment is used for program enhancement rather than for setting learning-outcome metrics.

5. The members decided to recommend to the president that the faculty dinner be held September 19th, with backup dates the 18th and 11th. Members also debated the appropriateness of such an event during the current budget crisis. Members decided to suggest hors d’oeuvres in place of a meal as a cost-cutting measure.

6. The members reviewed the draft catalog copy forwarded by Dean Rogers. Dr. Owen will report back to him that the descriptions for Anthropology and Geology should reflect the currently approved programs, and be written by the respective departments.
7. Dr. Owen reported that the ad hoc committee is now reviewing the submissions, and has requested numerous documents from members of the university community.

III. Old Business

2. The minutes of the July 6th meeting were approved.

II. Reports and Announcements

1. Dr. Owen reported that the RU Board of Visitors will meet on September 9th and 10th. The Student Affairs Committee will meet at 9am, the Business Affairs Committee at 11 am, and the Academic Affairs Committee at 1pm on the 9th. The full board will convene at 9am on the 10th. The first item on their agenda is a closed session in which they will elect the faculty representative, who will then be seated.

2. President Kyle will give a brief statement of welcome to the senators at our first meeting on the 10th.

3. The College of Humanities and Behavioral Sciences and the College of Science and Technology are scheduled to elect one adjunct senator each, and Dr. Owen will contact the deans to arrange for this.

4. Dr. Owen met with a group concerned with implementation of the new Core Curriculum, and so far things seem to be on track. The next big issue will be that in fall 2010 faculty will be needed to teach the full set of sections of CORE 201. The target date for getting the names of interested faculty is October 15th. It remains to be determined how this will be done.

5. Dr. Owen reported that the university is engaged in pandemic planning for the H1N1 flu virus. Dr. Dennie Templeton has been leading this effort, and the provost will report on the issue at the leadership team meeting at 1pm, Wednesday the 26th, in the Bonnie Auditorium.

6. At the convocation, the speakers will be Tommy Fraim (Rector of the Board), President Kyle, Provost Stanton, Dr. Owen, and Matt Clem, the president of the Student Government Association. Dr. Owen asked the members to provide reflections for him to consider as he prepares his remarks for convocation. Members offered several comments, with an emphasis on the importance of faculty unity and collegiality, an understanding of the difference between principled disagreement and
factionalism, and placing the welfare of the institution as our foremost priority in all our deliberations.

7. We do not have an announcement of the new appointees to the Board of Visitors.

8. The executive council will meet with President Kyle regularly, starting in about a week.

9. Dr. Owen reported that the ad hoc investigative committee is working to meet its October 1st deadline for its report. It is not yet ready to write its report, because it is still attempting to gather needed facts. Questions have been submitted to administrators. The committee has also met with several administrators to get answers to questions. Dr. Owen’s impression is that administrators have been cooperative and forthcoming.

III. Old Business

1. None.

IV. New Business

1. Because of the BOV meeting, the members chose to set their executive council meeting prior to the first senate meeting on the 10th for Tuesday the 8th at 2:30 pm. At the September 2nd meeting of the executive council we will make committee assignments.

2. Members took up the recommendation for Academic Program Review that has been forwarded by the Academic Program Review Committee. Members appreciated the adjustments that had been made in response to faculty concerns that they had communicated to the committee earlier in the summer. Dr. Jordan stated that the issue of electing faculty representatives still needs to be addressed. Dr. Jordan also asked if we should consider an appeals process. Dr. Owen noted that this question is beyond the scope of the recommendation. After discussion, the members voted to recommend adoption of the academic program review procedure drafted by the committee.

3. Members reviewed the committee objectives from the previous year and discussed objectives for the new year. This discussion will continue at our next meeting.

4. Members debated how to initiate consideration within the senate of revision of the university internal governance system. It was determined that the executive council will introduce a resolution at the first senate meeting calling for the creation of a task-force to consider whether IG should be revised, and to consider what process should be followed for such revision, and make a recommendation to the full senate. Dr. Smith will draft the executive council motion for members’ consideration at the next meeting.

2. The members concurred.

III. Old Business

1. Members discussed how to move forward in the relationship between the faculty and administration in light of the Vote of No Confidence in the Provost.

IV. New Business

1. Members met with President Kyle. She informed the members that on the advice of the board consultant, Tim Sullivan, she wants to meet with faculty members to hear first-hand the issues that informed the vote of no confidence. Dr. Jordan pointed out
that because it was a secret ballot it is problematic to provide names of faculty senators whose positions are known. President Kyle suggested that perhaps a faculty member who was outspoken could form the appropriate group. Long discussion ensued regarding the foundations for the vote of no confidence, and the president’s need to hear from all sides. After the president departed the members agreed to ask Dr. Moira Baker and Dr. Gwen Brown to form a group to talk to the president, and Dr. Owen will identify and contact senators who were known to oppose the motion to meet with her as well.

III. Old Business

1. None.

IV. New Business

1. Dr. Jordan reported that Bethany Bodo would like to know if she can work towards developing an online version of the student evaluation form for courses that are taught online. This will require a policy to be written into the Faculty Handbook, and the Faculty Issues Committee should be able to develop the proposed change. However, since time is short, the members determined to instruct Ms. Bodo to proceed for this semester and the policy for future semesters will be promulgated in due course.

2. Members discussed the new ANTH/ANSC 101 course. This has been approved, but has not been approved for general education credit. It appears that the program revision for Anthropological Sciences and the new course should be looked at together by the Faculty Senate Curriculum Committee. Three sections of the course are being offered in the spring 2010 semester. If the course is approved for the Core Curriculum, these students could be given the appropriate Core credit by a blanket petition. The Curriculum Committee will be asked to request of the Sociology Department that they provide Review and Comment on the program revision proposal.

3. It is now clear that a sufficient number of senators have requested a special meeting on November 10th for the purpose of having an exchange with President Kyle on the topic of the recent vote of no confidence in the provost. Members discussed how to ensure that the meeting met the expectations of senators and determined that the
meeting should be conducted as a committee of the whole. A resolution was agreed to and will be introduced at the meeting on November 5th.
