

## **Motion regarding the Core Curriculum Website and Course Equivalencies**

### Motion

The Faculty Senate recommends that the Core Curriculum website be revised to reflect the fact that Radford University students can satisfy the Core A requirements by taking the courses listed as transfer equivalents for VCCS at Radford University. These equivalencies are listed at:

<http://core.asp.radford.edu/Core%20Curriculum%20Equivalencies.pdf>

### Rationale

The DegreeWorks program counts courses listed as VCCS equivalencies taken at Radford University as satisfying the Core A requirement for Core 101, Core 102, Core 201, and Core 202. Therefore, the Core website should make this information available to all Radford University faculty and students. Students in some disciplines will benefit from this option. For example, students applying for pharmacy school need to have a public speaking course like COMS 114 on their transcripts. Pharmacy school will not regard Core 201 as a substitute.
