

MOTION: The Campus Environment Committee recommends the approval of a revised Faculty Satisfaction Survey. The new survey includes the addition of two items: (1) The Provost responds to inquiries from faculty in a timely manner and (2) The President responds to inquiries from faculty in a timely manner. All other survey items remain unchanged.

RATIONALE: Timely response to faculty questions and concerns by the Provost and President is important for effective governance. Given that existing survey items do not address this issue, the CEC proposes the stated modifications.
