Stephanie reported they are doing more with looking at transcripts in having the students enrolled in the summer Bridge program before their fall semester to get them acclimated and more aware of what college life/athletes will be like.

Mark Munzinger: Agreed the summer Bridge program was very beneficial, not only to student athletes, but to many others coming to college for the first time.

Betty Dore: The NCAA survey regarding student athlete gambling has been administered to the Men's and Women's Track Team as those were the teams selected by NCAA. The results were sent back to the "anonymous" company who will do the tallying.
