

## ***Motion Regarding Funding Related to Accommodations for Faculty, Staff, and Students with Disabilities***

Submitted by the Campus Environment Committee

### **MOTION:**

The Faculty Senate recommends that budget costs related to accommodations for faculty, staff, and students with disabilities are incurred at the university level instead of departments, programs, colleges, or schools.

### **RATIONALE:**

*During the two accessibility forums held on November, 10-11, 2011, faculty raised concerns that costs related to accommodations for faculty, staff, and students are frequently being paid by individual departments and programs. Such practices could potentially negatively affect hiring of faculty or admitting students who require accommodations. Therefore, we recommend that all such accommodations be funded at the University level.*
